

SIDELITE STYLES

Paramount Windows full complement of matching sidelites can offer an even larger impression to create the curb appeal for your home. All glass options are available in the matching sidelites as they are on our main doors, as well as a wide selection of decorative glass inserts.

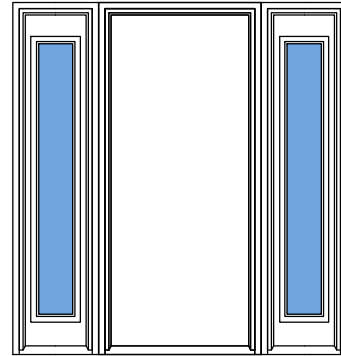

- Some panels are available in 8-0' heights.
- Some models are available in either inswing or outswing venting styles. Contact your sales consultant for details on which one will work for your home and style.

INSULATED ENTRY DOORS

Paramount Windows full line of premier entrance systems are available in **steel insulated, smooth finished fibreglass** (dent resistant) and **wood grain fibreglass** for the look and functionality of classic entryways. Glass options range from clear glass, glass with low e, obscured glass options, available in both DUAL and TRIPLE pane. Customers can also select a grill between the glass in a full complement of finishes and styles or select from Paramount's huge array of decorative glass. The "mini" options are a raise/lower venetian blind that is encased between an energy efficient DUAL pane unit for ease of cleaning and privacy. Some panels are available in 8-0' heights. Please contact your sales consultant for full details.
